

## **SPECIAL SYMBOLS AND FEATURES**

### **MEGAWAYS™**

The number of possible win ways varies per spin according to the total number of individual symbols which land on the reels, with a maximum potential of 117,649 MegaWays™ to win!

### **CHAIN REACTION**

Symbols forming wins disappear, making way for new symbols to drop in that may form new wins.

### **FEATURES**

The game has 3 features that may be triggered randomly at any spin: SOUL PIT, SEA FURY and OLYMPUS BLESSING. Only one of the features may activate during a spin.

#### **SOUL PIT**

On any spin between 2 and 9 WILDS may appear on any of the middle four reels. WILDS substitute for all paying symbols and count as the symbol which forms the longest winning combination on a single win way.

#### **SEA FURY**

On any spin Super WILDS covering a whole reel may appear on any of the middle 4 reels with between x2 and x7 ways multipliers. Up to 3 Super WILDS may appear in a single spin. The ways multiplier represents how many symbols the Super Wild is being counted as in the ways calculation.

#### **OLYMPUS BLESSING**

Randomly on a spin a random multiplier may be awarded and applied to all wins in the current spin. The initial value of this multiplier is between x2 and x5 and it increases by +1 after each cascade. The multiplier is removed after that spin. The multiplier may rise up to x20.

### **FREE SPINS**

3 FREE SPINS scatters anywhere on the reels award 8 FREE SPINS. At the start of the bonus round one of 3 identical temples must be picked. The picked option reveals an insignia representing one of the game's features: SOUL PIT, SEA FURY or OLYMPUS BLESSING.

Whatever is revealed by the picked option will be the only feature that can randomly activate during the bonus round, but it will activate with an increased frequency.

The FREE SPINS bonus round starts with a x1 WIN MULTIPLIER and each win increases it by +1 up to a maximum of x20. The multiplier is applied to all wins during the bonus round. The WIN MULTIPLIER does not reset for the duration of FREE SPINS.

If OLYMPUS BLESSING is the active feature during FREE SPINS any multiplier received from the feature activation is added up to the global WIN MULTIPLIER but the maximum global WIN MULTIPLIER of x20 will not be exceeded.

FREE SPINS scatters may land during FREE SPINS, with each scatter awarding 1 bonus spin.

## **HOW TO PLAY ATHENS MEGAWAYS™**

### **Total Stake**

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or – buttons.

### **Spin the Reels**

If you are playing on desktop, click the Spin button or press the spacebar to spin.

### **Jackpot Game**

Win one of the offered jackpot tiers when three or more jackpot symbols appear on the reels or the jackpot is triggered by a game feature. The chances of winning a jackpot increase in correlation with the size of the stake played. The jackpot is triggered randomly and can be won by playing any of the linked jackpot games. To win the jackpot, the player is not required to make any decision other than to spin the reels. The stake value cannot be changed during free spins. Internet connectivity issues may cause delays in jackpot messages or updates, but they do not affect actual jackpot wins. It is not possible for two players to win the same jackpot. In the event two jackpot winnings occur close to one another the jackpot will be assigned in their respective order. Due to connectivity issues the jackpot value displayed may differ from the effective jackpot value. The jackpot could be temporary deactivated, when this occurs all contributions are paused. The jackpot amount available upon reactivation will be the same as before the deactivation.

The rules for Jackpot discontinuation and Jackpot fund allocation are defined by each Operator at their own discretion.

### **Progressive Jackpot**

The progressive jackpot is accumulated by all stakes on games offering these jackpots and, in some cases, the jackpots may be offered on multiple websites. A percentage of each total bet is added to a common pot. Part of this contribution is used to form the progressively increasing jackpot amounts, and the other part, contributes to a seed fund, which is the minimum amount of money guaranteed to be made available to players after a jackpot is won by qualifying players. Once the jackpot has been won, a new progressive jackpot will be made available and the process repeats. The jackpot can be triggered and won by a single spin from a single user only. The jackpot does not have a ceiling value. The odds of winning the jackpot increases with the size of the jackpot and can be won at any time. When the jackpot is won by another player, a notification appears in the jackpot panel. Once won, the amount is transferred directly to the user wallet, even if it is won during a bonus spin.

## General types of games

Check the pays menu in the game payable if you are not sure of the game type.

The values related to each symbol, shown either on the slot scene or on the dedicated Symbol Wins pages of the Pays menu, represent stake multipliers and not credits.

The prize value from one payline is equal to the total stake divided by the number of paylines, multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid. Each individual payline can pay only once per spin.

Example: Total stake is 2. Total paylines are 20. Symbol multiplier for length of 5 is 300. The win for 1 payline with this symbol and length would be calculated as such:  $2 / 20 * 300 = 30$ .

The prize value from one payline in a Multiline game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple win lines, the total win values are summed. If more than one win occurs on the same payline, the largest win is paid.

Example: Stake is 2. Symbol multiplier for length of 5 is 20. The win for 1 payline with this symbol and length would be calculated as such:  $2 * 20 = 40$ .

The prize value from one way or cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the payable. Where multiple wins occur on multiple ways or clusters, the total win values are summed.

If more than one win occurs on the same way or cluster, the largest win is paid.

Example: Total stake = 2. Symbol win multiplier = 2. Win =  $2 * 2 = 4$ .

If there is a Scatter Symbol in the game, all wins will be paid in addition to any other symbol wins occurring on the same spin. If you are playing a Scatter Pays game only the highest winning combination is paid per symbol.

Please be aware that each account allows only a single game to be played at any one time. Therefore, a game should not be played on more than one device, or multiple games on the same device simultaneously. Doing so may lead to various errors.

In case of an incomplete game round due to connection loss where the result has not yet occurred, the game will generate an outcome for the round, which will be shown upon restoring of connection and the result will be visible in the Game History after refreshing the game. In case of an incomplete game round due to connection loss where the result has occurred, but the player could not be informed of this fact, the game will inform the player of the outcome upon refreshing of the game and the result will be visible in the Game History.

## Gaming session information

"Gaming session" is considered the time since the current game has been opened, until the time it is closed. Opening the game again from the lobby, or reloading the game in the browser is considered a new gaming session.

"Session timer" is being measured for the current gaming session only.

"Net position" is being based on the current gaming session only, calculating "all real money wins minus all real money bets."

For the best gaming experience, use of the latest version of software is recommended. Malfunction voids all pays and plays.

The RTP is  $\approx$  XX.XX% which includes base game RTP and jackpot contribution.

Minimum stake: \$x.xx

Maximum stake: \$x.xx
