

Chicken Night Fever™

About this Game

This is a 5 reel 3 row video slot game.

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

Way Rules

This game includes 243 ways and can go up to the maximum number of 7776 ways.

A way is a pattern of adjacent symbol positions that runs across the reels.

Way wins run from left to right, starting from the first slot reel.

Bet Rules

Each spin played costs a total bet amount.

The total bet is based on the initial bet placed, multiplied by the cost of the ways played.

The initial bet is the current total bet divided by the way cost of 5.

Payout Rules

Wins are multiplied by the total bet.

Way win payouts are based on the initial bet placed.

The payout value is based on the winning combination formed.

The total payout is the sum of all way wins and SwiftHits™ wins resulting from a spin.

The Paytable displays the payout for each symbol combination based on the current bet.

Only the highest winning combination is awarded per symbol combination.

Wild Symbols

Wild symbols can substitute for all symbols except Scatter and Chicken symbols.

Scatter Symbols

Free Spins symbols are Scatter symbols.

Scatter symbols do not have a payout.

All ways played are the same as the spin that triggered this feature.

All bets played are the same as the spin that triggered this feature.

Wins awarded during the feature are added to base game wins.

Way wins are multiplied by the amount displayed in the overall ways multiplier.

When a Wild symbol lands and results in a win, the Wild symbol reveals a multiplier, the multiplier chosen is added to the overall ways multiplier.

Wild symbols may land and award up to a X100 multiplier.

The number displayed in the overall ways multiplier is added to each win until the free spins feature ends.

The overall win displayed at the end of the free spins feature is not multiplied.

During Free Spins, all SwiftHits™ symbol wins are not multiplied by the ways multiplier.

Retriggering will grant additional free spins equal to the amount initially awarded and at the same multiplier level.

The Free Spins wheel awards 8, 10, 12, 15 spins at an X2, X3, X5 or X8.

The Free Spins wheel spins twice, the first spin awards the number of spins and the second spin awards a multiplier.
