

## East Sea Dragon King Touch™ Game Rules

- East Sea Dragon King Touch™ is a 5-reel, 3-row video slot with the Cluster Pays™ mechanic. The game features Wild substitutions, Expanding Wilds, and Re-Spins.
- The game is played with clusters of symbols, 1-10 bet levels (10 coins per level), and different coin values.
- There are no bet lines.
- **AUTOPLAY** automatically plays the game for the selected number of rounds.
- Winning combinations and payouts are made according to the Paytable.
- **COINS** displays the number of coins available to wager.
- All wins are shown in coins.

## Cluster Pays™ Mechanic

- A symbol is part of a cluster if it is horizontally or vertically adjacent to the same symbol.
- 5 or more of the same symbols appearing in a cluster award a win according to the Paytable.
- Multiple clusters of the same symbol that are not adjacent to each other pay as separate clusters.
- Simultaneous wins from multiple clusters are added.
- Only the highest win per cluster is paid.
- A cluster win in coins is equal to the value shown in the Paytable multiplied by the bet level.
- A cluster win in currency is equal to the win in coins multiplied by the coin value.
- When six or more Wilds form a cluster, they only substitute for symbols on either side of the cluster. Due to this, the only instance when Wilds form a cluster and do not substitute for a symbol on either side of them is when the whole screen is filled with Wilds.

## Wild and Expanding Wild

- Wild symbols can appear anywhere on the reels in the main game and in Re-Spins, and substitute for all symbols.
- One or more Wild symbols landing anywhere on the reels in the main game, automatically expand to cover the entire reel they land on and then activate a Re-Spin.
- Wins are awarded after all Wilds have expanded and before a Re-Spin starts.
- The Wild symbols expand to cover the entire reel and remain in place while the other reels re-spin.
- When the Re-Spin ends, any new Wilds appearing on the reels expand in the same way as the initial spin and wins are evaluated.

- One or more Wild symbols landing anywhere on the reels in Re-Spins activate an additional Re-Spin.
- Re-Spins are played at the same bet level and coin value as the spin that activated Re-Spins.
- Re-Spin wins are added to any wins from the initial spin.
- Wild symbols substitution pays the highest possible winning combination on a bet according to the Paytable.
- If a fifth Wild symbol lands in the main game or Re-Spins, no Re-Spins are activated and a double payout on the 15 Wilds is awarded.
- The payout for 15 Wild symbols is 10000.
