FEATURES DESCRIPTION

LOCK AND SPIN

When a WILD Book Scatter lands, it locks together with its reel for the following user spins and remains locked until no more WILD Book Scatters land or the Free Spins Bonus is triggered. Note that to spin with the WILD Book Scatter reels locked the player must bet. The LOCK AND SPIN feature is not active during the FREE SPINS BONUS.

FREE SPINS BONUS

3 or more WILD Book Scatters trigger the Free Spins Bonus, where 3 Scatters grant 10 free spins, 4 grant 12, and 5 grant 15 free spins. One paying symbol is selected as a Special Symbol. The WILD Book Scatter and the Golden Pot Symbol are excluded from the Special Symbol selection. On each spin, the Special Symbol may clone over the rest of the reel to grant extra rewards with only Special Symbols paying anywhere on a line. Initial win lines are paid separately from the Special Symbol Cloning win lines. A choice between two special features is offered.

► CLONING SYMBOL UPGRADES

On each Special Symbol win the Leprechaun may appear to upgrade the Special Symbol to the next higher paying symbol for the rest of the bonus. The Golden Pot Symbol is the last possible upgraded Special Symbol in the bonus. When a Special Symbol is upgraded, its winnings are upgraded correspondingly and only the final screen pays.

► CLONING MULTIPLIER WINS

On each Special Symbol win the Leprechaun may appear to multiply that win by x2, x3, x4 or x5 at random. The optimal strategy is to always choose the Cloning Multiplier Wins feature.

► EXTRA FREE SPINS

During the Free Spins Bonus each WILD Book Scatter landed instantly awards between 2 to 5 additional Free Spins at random. The maximum number of Free Spins is 390. The WILD Book Scatter substitutes for all paying symbols but the cloned Special Symbol in Free Spins, and does not have a payout. Free Spins wins are paid in addition to any line wins achieved before entering the bonus.

HOW TO PLAY

Adjust your total stake and spin the reels!

The reels will spin and stop on a random position.

Note: Your achievements per stake are preserved over sessions and stake changes.

If you are awarded free spins from a promotional campaign your progress in the main game, including any locked symbols, will be saved and available for you to continue playing at the same stake once the promotional free spins are completed.

Total Stake

The Total Stake is the total of stakes per line. You can adjust it at any time, using the + or - buttons.

GAME PROGRESS

Any progress features in the game are saved per stake level, including symbols locked onto the reels which affect subsequent spins. You can have a different progress level for every different stake in the game, and switch between them by changing the stake. In cases where free spins from a promotional campaign are awarded, any progress in the main game, including any locked symbols, is paused and will be saved per stake, and be available to use once the promotional campaign free spins are over. Please note that each stateful game saves its state forever.

Click the Spin button to spin the reels.

Auto Complete

This game saves its state for 5 calendar days, starting from the date of the last action taken. At times when the game remains uncompleted after 5 days, the Auto Complete functionality will finish the action. Any winnings will be automatically added to the user's balance.

The prize value of a single payline is equal to the total stake divided by the number of total paylines for the game, multiplied by the symbol multiplier presented in the paytable. In cases where multiple wins occur on multiple win lines in the same spin, their total win values are summed. If more than one win occurs on the same payline, only the largest win is paid.

Example: The total stake is 2. The total paylines are 20. The symbol multiplier for 5 identical landed symbols is 300. The win for a single payline would be calculated as follows: $(2 / 20) * 300 = 30$.

The prize value from one way or a cluster in a Ways or Winning Clusters game is equal to the stake multiplied by the symbol multiplier advertised in the paytable. Where multiple wins occur in multiple ways or clusters, the total win values are summed.

Example: Total stake = 2. Symbol win multiplier = 2. Win = $2 * 2 = 4$.

Any Scatter Symbol wins will be paid in addition to any other symbol wins occurring on the same spin.
