Falling Wilds Re-Spins

- Wild symbols substitute for all symbols except Free Spins symbols and Bonus symbols.
- After a Wild symbol appears on the reels and all bet wins are awarded for that spin, each Wild symbol shifts down one position on the reels and a Falling Wilds Re-Spin is awarded, in both the main game and Free Spins.
- Wild symbols that shift downward during Falling Wilds Re-Spins are called Falling Wilds.
- Wild symbols continue to activate Falling Wilds Re-Spins until they disappear from the reels. A Falling Wilds Re-Spin is still awarded on the round when the last Falling Wild symbol falls off the reels on the bottom row.
- Additional Falling Wilds Re-Spins can be won during a Falling Wilds Re-Spin.
- Bonus symbols and Free Spins symbols cannot appear on the same reel as a Falling Wild in the main game, as long as the Falling Wild is active. Bonus symbols do not appear during Free Spins.
- Both Free Spins and the Jackpot Bonus game can be won during a Falling Wilds Re-Spin.
- Falling Wilds Re-Spins are played at the same bet level and coin value as the spin that activated Falling Wilds Re-Spins.
- Falling Wilds Re-Spins wins are automatically added to any wins from the initial spin.
- The bet level and coin value cannot be changed during a Falling Wilds Re-Spin.

Wild on Wild Feature

- In both the main game and Free Spins, the Wild on Wild feature is activated when a Wild symbol lands behind a Falling Wild.

- When the Wild on Wild feature is activated, the affected Wild symbol will expand to cover the entire reel and all bet wins are awarded for that spin. Each Wild symbol shifts down one position on the reels and a Falling Wilds Re-Spin is awarded with 2 Falling Wilds on the reel.
- If 3 or more Free Spins symbols appear in the same spin as a Wild symbol, any Falling Wilds Re-Spins that are won in the round that activated Free Spins are played after Free Spins is completed.
- In the main game only, if 3 or more Bonus symbols have been collected after the final spin of an entire round, including Falling Wilds Re-Spins, the Jackpot Bonus game is activated.

Free Spins

- 3 or more Free Spins symbols appearing anywhere on the reels in the main game, including during Falling Wilds Re-Spins, activate Free Spins according to the Paytable.
- Additional Free Spins cannot be won during Free Spins.
- Free Spins are played at the same bet level and coin value as the round that activated Free Spins.
- At the end of Free Spins, the total win from Free Spins is added to any wins from the round that activated Free Spins.
- At the end of Free Spins, the game returns to the round that activated Free Spins.
- In Free Spins only, any Wild symbol landing on the reels becomes a Wild on Wild, which automatically expands to cover the entire reel.

- The Jackpot Bonus game is activated when 3 or more Bonus symbols are collected in the main game only, including Falling Wilds Re-Spins.
- Note: All spins within the Jackpot Bonus game are free.
- The collected Bonus symbols are randomly placed on the reels before the start of the Jackpot Bonus game.
- The Jackpot Bonus game has 15 independent reels, spinning individually.
- Each Bonus symbol has a random coin win value of 10 – 200 x bet level.
- The player starts the Jackpot Bonus game with 3 spins. When at least one Bonus symbol lands on the reels during a spin, the number of spins resets to 3.

Jackpot Rules

- The Mega Jackpot is a progressive jackpot, where every time the game is played by a player a portion of the bet is added to the Mega Jackpot.
- Progressive Jackpot wins are subject to verification by the Operator and the Software Supplier. All decisions are final and no correspondence will be entered into.
- Jackpot values displayed in the game are delayed by up to 30 seconds. On exceptionally rare occasions, it may happen that two jackpots are won within those 30 seconds, in which case the win of the second jackpot is the new re-seeded jackpot. All players playing the game when a jackpot is won will receive a notification within 30 seconds about the jackpot amount being won.
- When one game round makes a claim for a certain jackpot, it is locked for that game round and simultaneously assured that no other game round can claim the same jackpot. Therefore, it is technically not possible to have two simultaneous wins of the same jackpot.
- If the communication between the Operator and Jackpot server fails, the game becomes unavailable. There will be no contributions or claims towards the Jackpot. The Jackpot amount remains the same until the communication is resumed.
- The Progressive Jackpot amount paid out is the Progressive Jackpot value on the operator's server when a jackpot is won. Every effort is made to ensure that the Progressive Jackpot value displayed in the game is the same as the one on the operator's server.
- The Jackpot counter might be displayed in a currency other than that you are playing in. If you win a Jackpot and are playing with a different currency, the amount won is converted to the currency in which you are playing and is added to your account.
- Divine Fortune Touch contains Minor, Major and Mega Jackpots. The following contributions are made from each bet:
 - 3.7% of the bet is contributed to the MEGA Jackpot. 20% of the contributions are set aside for the next Jackpot.
 - 3.7% of the bet is contributed to the MEGA Jackpot.
 - The current Jackpot amount for each type of Jackpot is displayed at the top of the game.
 - The Jackpot cannot be won when **PLAYING FOR FUN**.
 - There is no upper limit on progressive jackpot values.
