

Cash Flip Devil's Coin™

About this Game

The objective of the game is to spin the reels so the symbols land in different combinations.

Winning combinations are highlighted on the reels and a payout is awarded.

This is a 5 reel 4 row video slot game.

This game is played with credits only.

Spins within the Free Spins feature will be called free spins.

Payline Rules

This game includes 20 paylines.

The number of paylines played is fixed.

A payline is a pattern of adjacent symbol positions that runs in a line across the reels.

A win is awarded when matching symbols land adjacent to each other on a payline.

Payline wins run from left to right, starting from the first slot reel.

Bet Rules

Each spin played costs a total bet amount.

Payout Rules

Wins are multiplied by the total bet.

Payline win payouts are based on the initial bet placed.

The payout value is based on the winning combination formed.

The total payout is the sum of all payline wins and Scatter wins resulting from a spin.

If multiple winning combinations land on a single payline, only the highest win is awarded.

Only the highest winning combination is awarded per symbol combination.

The Paytable displays the payout for each symbol combination based on the current bet.

Free Spins symbols pay scattered.

Coinciding wins on different paylines are added to the win.

Wild Symbols

Wild symbols appear on all reels during base game, Cash Flip™, Devil Collect, Devil Multi Collect and Free Spins features.

Wild symbols can substitute for all symbols except Devil's Coin, Collect, Multi Collect, Free Spins, and Cash symbols.

Wild symbols can create their own winning combination when landing in a payline combination.

Devil Collect Feature

The feature is available in Free Spins and the base game.

The feature is triggered when 1 or more Cash and/or Devil's Coin symbols and the Collect symbol land on the same spin.

Cash symbols can appear on reels 1, 2, 3, 4.

Cash symbols can have a value between 0.2x and 50x the total bet.

Devil's Coin symbols can appear on reels 2, 3, 4.

Devil's Coin symbols can have a value between 0.6x and 50x the total bet.

The Collect symbol can appear on reel 5 only.

During the feature, the Collect symbol collects the value of all Cash and Devil's Coin symbols to the Devil's Flip Coin and awards the player the total amount.

The feature ends when winnings are collected and paid.

Devil Multi Collect Feature

The feature is available in Free Spins and the base game.

The feature is triggered when 1 or more Cash and/or Devil's Coin symbols and the Multi Collect symbol land on the same spin.

Cash symbols can appear on reels 1, 2, 3, 4.

Cash symbols can have a value between 0.2x and 50x the total bet.

Devil's Coin symbols can appear on reels 2, 3, 4.

During the feature, the Multi Collect symbol collects the value of all Cash and Devil's Coin symbols and adds it to the Devil's Flip Coin, as a total starting value.

The Devil's Flip Coin activates and awards this starting value to the player up to 10 times by flipping it into higher values.

The value shown on the Devil's Flip Coin after each flip is an increasing multiple of the starting value.

After the last flip the final prize amount is awarded to the player.

The feature ends when winnings are paid.

Cash Flip™ Feature

The feature is available in Free Spins and the base game.

The Cash Flip™ feature determines the prize value of the triggering Devil's Coin symbol on the reels during Devil Collect or Devil Multi Collect features.

The feature is triggered when 1 or more Devil's Coins and Collect or Multi Collect symbols land on the same spin.

Devil's Coin symbols can appear on reels 2, 3, 4.

Devil's Coin symbols can have a value between 0.6x and 50x the total bet.

Collect and Multi Collect symbols can appear on reel 5 only.

Each Devil's Coin symbol landed triggers its own Cash Flip™ feature.

During the feature, the Devil's Flip Coin becomes active and flips randomly several times, awarding cash prizes.

The last flip can award a 2x-5x multiplier or a Mini or Minor jackpot prize.

The Devil's Coin symbol that triggered the Cash Flip™ feature collects the total prize value when the feature is over.

Free Spins Feature

The feature is available only in the base game.

The feature is triggered by landing 3 scattered Free Spins symbols on reels 1, 3, and 5.

The Free Spins symbol is a scatter symbol.

The feature awards the player 10 free spins to start.

Landing 2 or 3 Free Spins symbols on the same spin awards more free spins.

2 Free Spins symbols award 2 extra free spins, and 3 Free Spins symbols award 5 extra free spins.

Cash Flip™, Devil Collect, and Devil Multi Collect features occur more frequently during Free Spins.

The feature ends when there are no remaining free spins left.

The total payout is the sum of all payline wins and other features wins resulting from a spin.
